Making Christian History

Nov 02 2020 Known as the "Father of Church History," Eusebius was bishop of Caesarea in Palestine and the leading Christian scholar of his day. His Ecclesiastical History is an irreplaceable chronicle of Christianity's early development, from its origin in Judaism, through two and a half centuries of illegality and occasional persecution, to a

new era of tolerance and favor under the Emperor Constantine. In this book, Michael J. Hollerich recovers the reception of this text across time. As he shows, Eusebius adapted classical historical writing for a new "nation," the Christians, with a distinctive theo-political vision. Eusebius's text left its mark on Christian historical writing from late antiquity to the early modern period—across linguistic,

cultural, political, and religious boundaries—until its encounter with modern historicism and postmodernism. Making Christian History demonstrates Eusebius's vast influence throughout history, not simply in shaping Christian culture but also when falling under scrutiny as that culture has been reevaluated, reformed, and resisted over the past 1,700 years.

Corbly-Corfman and

Bachlor-Berry Families Jul 30 2020 The Corbly-Corfman and Bachlor-Berry Families is a four part genealogy of each of the families; each part contains illustrations, bibliography, and index. This book establishes the ancestry of Earl Jackson Corbly and Ina Fay Bachlor Corbly who were married in 1927. It was written for their descendants, but is also a valuable genealogical source for each of the four family lines. Pastor John Corbly is traced from 1733 in his home in Dunshaughlin, County Meath, Ireland. Johann Philipp Korffmann is traced from 1653 in his home in Alzey-Stein Bockenheim, Germany. John Batchelor is traced from 1543 in his home in Chesham, Buckinghamshire, England. And David Berry is traced from 1630 in his home in Saggart, Leinster, County Dublin, Ireland.

Russian Orthodoxy Under the Old Regime Mar 18 2022

Russian Orthodoxy under the Old Regime was first published in 1978. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. In this book, which is especially suitable for course use, eleven scholars examine one of the most important institutions of imperial Russia, the Orthodox

church in the two centuries before the Russian revolution. The material is arranged in two sections, the first devoted to Orthodoxy's role in Russian social and cultural life and the second dealing with the church's relationship to the tsarist regime.

Depression Jun 21 2022 Here is the story of what life was like for a boy growing up in a small southern town during the years of the Great Depression, then continuing on to service in World War II, getting an education, and building a career. It's no different that what many young men born at this time did. Between the financial struggles of the Depression years culminating with our entry into World War II, this was a difficult time in America's history. There were many hardships, but there was fun too. Along the way are stories about country life, farm chores and colorful local residents and relatives.

The Spiritual-Industrial Complex Aug 31 2020 This

fascinating volume argues that American leaders in the early Cold War considered the conflict to be profoundly religious, that they saw Communism not as godless but as a religion fighting faith with faith. As a result, they deliberately used religious beliefs and institutions as part of the plan to defeat the Soviet enemy. Jonathan Herzog offers an illuminating account of the spiritual-industrial complex, chronicling the rhetoric, programs, and policies that became its hallmarks.

for the teenage soul."--from publisher's description. *Kinzua* Jul 22 2022 The future of the valley of the upper Allegheny River was predetermined in the 1930s with talks of flood control. As time drew nearer for construction of Kinzua Dam, even the last protesters conceded their world was doomed. It was not the end of the world, but it was the end of their world, their way of life--for how can you infuse hope into the spirit of man when all is ordained to be taken from him? To those who intimately knew these times, perhaps the valleys are better known by what is gone than by what remains today. True, the past cannot be captured, but we may forever ponder the times lost--villages abandoned; farms without green fields; trees cleared and burned, as the fires set by the Corps rid the valleys and remote hamlets of the residue of human life. For centuries the Allegheny hills acted as stewards guarding, perhaps falsely, the destiny of the inhabitants. Kinzua Dam held back the Allegheny River as everyone and everything previously known vanished beneath it. As some witnessed the extinction of a valley, others marveled at the engineering of a great dam--for as Cornplanter discerned--upon the eternal scroll, time writes the passing.

Kenosis Creativity

Architecture Jun 09 2021 Kenosis Creativity Architecture locates and explores creativity's grounding in the ancient concept of kenosis, the "emptying" that allows

creativity to happen; that makes appearance possible. It concretises that grounding through architecture—a primal expression of human creativity—critically examining, for the first time, kenotic instantiations evidenced in four iconic, international projects; works by Kahn, Pei, Ando, and Libeskind. Then, in a final turn, the potentiality of architecture's own emptying is probed. Architect and author Randall Lindstrom draws on Western and Eastern philosophy, including that of Heidegger, Levinas, Derrida, Vattimo, Nishida, and Nishitani, as well as on the theology of Christianity, Judaism, and aspects of Buddhism, Hinduism, and Islam. Every chapter expands the argument that, if responsiveness to our world is taken seriously—if proper and sustainable responses are to be realised—then a deeper understanding of creativity, and so kenosis, is essential. This book opens-up a way of thinking about creativity and humanity's readiness to be creative. It thereby presents a crucial enquiry—at the nexus of architecture, philosophy, and theology—for researchers, graduate and postgraduate students, and practitioners alike.

Between Concept and Identity

May 20 2022 The identity of places of worship is one of the most difficult problems faced by religious architecture at the start of this new millennium. Contemporary globalising experiences demand, peremptorily, a reflection, both conceptual and situational, on

the origin of objects, people and institutions. Nevertheless, the chance of these migration flows annihilating already-existing religious identities is perceived as a problem. This problem is directly linked to the survival of architecture as a system carrying a material representation of the divine and constituting a self-reference system for the community of believers. Therefore, it is important to define the extent to which the new religious architecture has given room to an abstract type of formal experimentation which is disconnected from social reality. Does this architecture maintain its bridging, sacramental value, or, on the contrary, has it given way to the conceptualist trends still alive in the artistic world? Is metaphor a valid concept for the Christian religion? Is there an essential aspect linking this architecture to the centuries-old tradition of the Catholic Church? Different architectural, pedagogical, exhibition and formal initiatives have arisen in recent years and it is necessary to get to know them, with the purpose of understanding where contemporary religious architecture is heading in its eternal search for a permanent identity.

A Copious Fountain Oct 01 2020 *A Copious Fountain* tells the two-hundred-year-old story of Union Presbyterian Seminary in Richmond, Virginia. From its first days at Hampden-Sydney College, Union Presbyterian Seminary has answered its call to equip educated ministers to serve the

church. As the first institution of its kind in the South, Union Presbyterian Seminary created a standard for theological education across denominational affiliations. This systematic history of Union Presbyterian Seminary gives cultural and historical context to the school through its bicentennial year. Combining research, photographs, and primary source documents, Sweetser's book celebrates the enduring influence of Union Presbyterian Seminary in the church and beyond.

Proclamation! Sep 24 2022 At long last here is a textbook for the basic public speaking course--one that integrates a Christian worldview with up-to-date scholarship in the field of communication. *Proclamation!* covers the standard speech types: informative speech, persuasive speech, and ceremonial speech. In addition, Blake J. Neff recognizes that Christians need to know how to deliver an edifying speech and a personal testimony speech. Neff acknowledges that one of the reasons to study public address at the university level is that God has commanded His people to "always be prepared to give an account" (1 Peter 3:15). *Proclamation!* prepares Christians to speak not only as one to many but also as members of interpersonal or small groups. Christian teachers of public speaking will appreciate the assistance this book offers toward integrating faith with learning. Students will applaud the practical and readable approaches found in *Proclamation!*

Identity and Territory Jul 10 2021 Throughout history, the relationship between Jews and their land has been a vibrant, much-debated topic within the Jewish world and in international political discourse. *Identity and Territory* explores how ancient conceptions of Israel—of both the land itself and its shifting frontiers and borders—have played a decisive role in forming national and religious identities across the millennia. Through the works of Second Temple period Jews and rabbinic literature, Eyal Ben-Eliyahu examines the role of territorial status, boundaries, mental maps, and holy sites, drawing comparisons to popular Jewish and Christian perceptions of space. Showing how space defines nationhood and how Jewish identity influences perceptions of space, Ben-Eliyahu uncovers varied understandings of the land that resonate with contemporary views of the relationship between territory and ideology.

A Vision Splendid Aug 19 2019 During his forty-five years as a Latter-day Saint apostle and nineteen years as the prophet, David O. McKay gave thousands of speeches, including hundreds of temple and chapel dedications, civic addresses, funeral sermons, and General Conference and other Church-related talks. Many of these speeches contain some of the same prose and poetry, but no two speeches are the same. All of these discourses were written by McKay himself, and virtually all of them were typed, organized, and kept in large, legal-sized leather binders by Clare Middlemiss, his long-time personal secretary. His choice of prose reveals his favorite authors and literature, a glimpse into his personal library. It also conveys his ideals and his fervent belief in their truth. Never before, and not since, has The Church of Jesus Christ of Latter-day Saints had a prophet so well versed in secular as well as scriptural prose. McKay's intellectual and spiritual worlds meshed as he recited with ease

the poetry of Edgar A. Guest, John Oxenham, and Joaquin Miller, as well as the patriotic pronouncements of George Washington, Patrick Henry, and Benjamin Franklin. In one speech he seemed to have studied Scottish lore, and in another he effortlessly extolled current US statistics on crime or divorce. He was at times romantic and wistful, and at other times firm and warning. In *A Vision Splendid: The Discourses of David O. McKay*, Anne-Marie Wright Lampropoulos culls from the vast records of McKay's discourses that Middlemiss kept and groups certain categories of speeches together: dedications, civic addresses, Church discourses, and funeral sermons. Each chapter broadly analyzes a category and then includes samples of illustrative full speeches. This analysis and compilation illustrates how McKay looked to poignant prose for a sense of his own personal identity and inspiration, as well as the larger identity and inspiration of Church members.

[From Synagogue to Church: The Traditional Design](#) Oct 25 2022 The designs of synagogues and churches are acknowledged to be very alike. But the designers' procedure was confidential, and so far standard explanations have been unsatisfactory. A synagogue should express heavenly values with earthly materials. This combination was in fact expressed in numbers, for, as Plato said, they linked heaven and earth. Scripture described both the Jewish Tabernacle and Temple with a wealth of numbers. Proportions based on these numbers were used to design synagogues. Only a few Jewish

documents survive, but they reveal a symbolism, which Christians sometimes repeat. The synagogue sanctuary was designed to contain the 'Holy Ark', and the mosaic floors reveal the point 'Before the Ark' for the prayers and readings. These places faced each other, with the idea that God was facing his people. The synagogue was seen as facing heaven and in church buildings Christians repeated the same proportions. This was a joint tradition among Jews and Christians. It was easy to design, was carried out secretly and accurately, and - without a computer - was extremely hard to unravel. This book, for the first time, does just that.

The Demonic in the Political Thought of Eusebius of Caesarea

May 08 2021 The Demonic in the Political Thought of Eusebius of Caesarea explores how Eusebius of Caesarea's ideas about demons interacted with and helped to shape his thought on other topics, particularly political topics Hazel Johannessen builds on and complements recent work on early Christian and early modern demonology. Eusebius'

political thought has long drawn the attention of scholars who have identified in some of his works the foundations of later Byzantine theories of kingship. However, Eusebius' political thought has not previously been examined in the light of his views on demons. Moreover, despite frequent references to demons throughout many of Eusebius' works, there has been no comprehensive study of Eusebius' views on demons, until now, as expressed throughout a range of his works. The originality of this study lies both in an initial examination of Eusebius' views on demons and their place in his cosmology, and in the application of the insights derived from this to consideration of his political thought. As a result of this new perspective, Johannessen challenges scholars' traditional characterization of Eusebius as a triumphal optimist. Instead, she draws attention to his concerns about a continuing demonic threat, capable of disrupting humankind's salvation, and presents Eusebius as a more cautious figure than the one familiar to late antique scholarship.

[Scenting Salvation](#) Mar 26 2020 This book explores the role of bodily, sensory experience in early Christianity (first - seventh centuries AD) by focusing on the importance of smell in ancient Mediterranean culture. Following its legalization in the fourth century Roman Empire,

Christianity cultivated a dramatically flourishing devotional piety, in which the bodily senses were utilized as crucial instruments of human-divine interaction. Rich olfactory practices developed as part of this shift, with lavish uses of incense, holy oils, and other sacred scents. At the same time, Christians showed profound interest in what smells could mean. How could the experience of smell be construed in revelatory terms? What specifically could it convey? How and what could be known through smell? [Scenting Salvation](#) argues that ancient Christians used olfactory experience for purposes of a distinctive religious epistemology: formulating knowledge of the divine in order to yield, in turn, a particular human identity. Using a wide array of Pagan, Jewish, and Christian sources, Susan Ashbrook Harvey examines the ancient understanding of smell through religious rituals, liturgical practices, mystagogical commentaries, literary imagery, homiletic conventions; scientific, medical, and cosmological models; ascetic disciplines, theological discourse, and eschatological expectations. In the process, she argues for a richer appreciation of ancient notions of embodiment, and of the roles the body might serve in religion.

Taken from Preface (Page v.). [Ritual Sites and Religious Rivalries in Late Roman North Africa](#) Oct 21 2019 In [Ritual Sites and Religious Rivalries in Late Roman North Africa](#), Lander examines the rhetorical and physical battles for sacred space between practitioners of traditional Roman religion, Christians, and Jews of late Roman North Africa. By analyzing literary along with archaeological evidence, Lander provides a new understanding of ancient notions of ritual space. This regard for ritual sites above other locations rendered the act or mere suggestion of seizing and destroying them powerful weapons in inter-group religious conflicts. Lander demonstrates that the quantity and harshness of discursive and physical attacks on ritual spaces directly correlates to their symbolic value. This heightened valuation reached such a level that rivals were willing to violate conventional Roman norms of property rights to display spatial control. Moreover, Roman Imperial policy eventually appropriated spatial triumphalism as a strategy for negotiating religious conflicts, giving rise to a new form of spatial colonialism that was explicitly religious.

[What Makes a Church Sacred?](#) Nov 21 2019 "If churches belong to no one, what is their purpose? Mary K. Farag persuasively demonstrates that three interest groups cared

about this question in late antiquity: law-makers, Christian leaders, and wealthy lay-persons. Most of the time, their answers co-existed, sitting side-by-side like tectonic plates. Yet the plates did not always sit still, and it is events on their colliding boundaries that account for familiar Christian controversies in novel ways. What Makes a Church Sacred? argues that scholarship misunderstands well-known religious figures by ignoring the legal issues they faced. In this seminal text, Farag nuances the scholarly conversations on sacred space, gift-giving, wealth, and poverty in the late antique Mediterranean world, making use not only of Latin and Greek sources, but also Coptic and Arabic evidence"--

The Churches and the Third Reich Jun 28 2020 This monumental, comprehensive, controversial study is the first volume of a definitive history of the churches in Germany between the wars. It is especially significant in that it is based on a great deal of original research into both religious and political sources, and is the first book to work on the presupposition that an accurate picture of the churches in the Third Reich demands that both Protestant and Roman Catholic churches are studied side by side, since it was the rivalry between the

churches that in some ways contributed to their downfall. Contrary to what has often been asserted, Professor Scholder argues that Hitler did have a plan for the churches over a long period. Crucial to that plan on the Catholic side was his desire for a concordat parallel to that achieved by Mussolini, keeping the clergy out of politics, which the Vatican was over-hasty to meet; it was the attempt to treat the Protestant churches in a similar way to the Catholic church, which led to the difficulties that ended in the church struggle. There is also a realistic analysis of the Jewish question, documenting the churches' failure in this area with severity and scholarly rigor. The first part covers developments up to Hitler's seizure of power; the second is devoted to the year 1933, during which all the major issues were in fact decided.

A Religious History of the American GI in World War II Jul 18 2019 A Religious History of the American GI in World War II breaks new ground by recounting the armed forces' unprecedented efforts to meet the spiritual needs of the fifteen million men and women who served in World War II. For President Franklin D. Roosevelt and many GIs, religion remained a core American value that fortified their resolve in the fight

against Axis tyranny. While combatants turned to fellow comrades for support, even more were sustained by prayer. GIs flocked to services, and when they mourned comrades lost in battle, chaplains offered solace and underscored the righteousness of their cause. This study is essential reading for anyone seeking to understand the social history of the American GI during World War II. Drawing on an extensive range of letters, diaries, oral histories, and memoirs, G. Kurt Piehler challenges the conventional wisdom that portrays the American GI as a nonideological warrior. American GIs echoed the views of FDR, who saw a Nazi victory as a threat to religious freedom and recognized the antisemitic character of the regime. Official policies promoted a civil religion that stressed equality between Protestantism, Roman Catholicism, and Judaism. Many chaplains embraced this tri-faith vision and strived to meet the spiritual needs of all servicepeople regardless of their own denomination. While examples of bigotry, sectarianism, and intolerance remained, the armed forces fostered the free exercise of religion that promoted a respect for the plurality of American religious life among GIs.
