The highly-anticipated paperback edition of The Elements is finally available. An eye-opening, original collection of gorgeous, never-before-seen photographic representations of the 118 elements in the periodic table. The elements are what we, and everything around us, are made of. But how many elements has anyone actually seen in pure, uncombined form? The Elements provides this rare opportunity. Based on seven years of research and photography, the pictures in this book make up the most complete, and visually arresting, representation available to the naked eye of every atom in the universe. Organized in order of appearance on the periodic table, each element is represented by a spread that includes a stunning, full-page, full-color photograph that most closely represents it in its purest form. For example, at -183°C, oxygen turns from a colorless gas to a beautiful pale blue liquid. Also included are fascinating facts, figures, and stories of the elements as well as data on the properties of each, including atomic weight, density, melting and boiling point, valence, electronegativity, and the year and location in which it was discovered. Several additional photographs show each element in slightly altered forms or as used in various practical ways. The element's position on the periodic table is pinpointed on a mini rendering of the table and an illustrated scale of the element's boiling and/or melting points appears on each page along with a density scale that runs along the bottom. Packed with interesting information, this combination of solid science and stunning artistic photographs is the perfect gift book for every sentient creature in the universe. After proving itself to be the "funniest calendar of the year" (according to Gene Shalit), "irresistible" (USA Weekend), and "habit-forming" (Maxim magazine), the Nuns Having Fun calendar has inspired Nuns Having Fun, a book of endearing nuttiness. Catholic kitsch doesn't get any funnier. Written by Maureen Kelly and Jeffrey Stone, pitch-perfect co-authors of the nuns calendar and the New York Times bestseller Growing Up Catholic, Nuns Having Fun features hundreds of sisters in full habit, cutting loose and having a hoot. Here are nuns in the surf ("This is even more fun than walking on water"), nuns in bumper cars ("We brake for Jesus"), nuns in a beer hall ("Ale Marys"), and nuns in the museum, huddled in front of a study of nudes ("It's okay to open your eyes. Sister Wendy says it's art"). There are nuns on skates, at bat, at the theater, skeet shooting (nuns with guns!), even hitting the slots (you know it's for a good cause). The 125 images are from the 1950s and '60s, black-and-white and possessing a pure retro charm; the written material is all-new. Drawing on their years as parochial school students, the authors explore the lore and legends surrounding nuns, including Favorite Punishments from Nuns, Nuns Say the Darndest Things, How to Recognize a Nun After Vatican II, a Wimple Watch, and List of People Who Could Have Been Nuns. As Sister says, "To err is human. To laugh is divine."
