The Poor in Western Europe in the Eighteenth and Nineteenth Centuries Jan 19 2022 First published in 1986, this book examines poverty and changing attitudes towards the poor and charity across England, France and Italy. It discusses the causes of poverty and the distinctions between the poor and the class-conscious proletariat. Taking early nineteenth-century Italy as a special study, it uses the exceptionally rich documentary sources

from this time to examine such issues as charity, repression, the reasons why families suffered poverty and what strategies they adopted for survival. In this study, Stuart Woolf takes full account of recent work in historical demography and in sociological studies of poverty and the welfare state to produce this original and thoughtful work. This book will be of interest to those studying the history of poverty, class and the welfare state.

AMLS: Advanced Medical Life Support Sep 22 2019 Advanced Medical Life Support (AMLS) is the leading course for prehospital practitioners in advanced medical assessment and treatment of commonly encountered medical conditions. Endorsed by the National Association of EMS Physicians, the course emphasizes the use of the AMLS Assessment Pathway, a systematic assessment tool that enables EMS practitioners to diagnose medical patients with urgent accuracy. In the Second Edition of AMLS, students learn to recognize, assess, and manage common medical crises in patients. Topics covered include: respiratory disorders, cardiovascular disorders, shock, neurologic disorders, abdominal disorders, endocrine and metabolic disorders, infectious diseases, environmental-related disorders, and toxicologic emergencies. Critical thinking scenarios encourage interaction and challenge students to apply their knowledge to realistic situations. During the scenarios, students:

- Are at the patient's side from arrival on scene to delivery to the hospital.
- Assess, review, and discern the possible diagnosis of the patient.
- Choose the next step to take on the AMLS Assessment Pathway.
- Confirm the final diagnosis and provide ongoing prehospital management of the patient.

New to the Second Edition:

- Refined AMLS Assessment Pathway.
- Clear emphasis on the BLS provider and integration with ALS throughout the assessment process.
- Expanded content on highly critical patients.
- Expanded content on environmental-related disorders.
- Expanded content on infectious diseases.

Mussolini's Children Sep 27 2022 Mussolini's Children uses the lens of state-mandated youth culture to analyze the evolution of official racism in Fascist Italy. Between 1922 and 1940, educational institutions designed to mold the minds and bodies of Italy's children between the ages of five and eleven undertook a mission to rejuvenate the Italian race and create a second Roman Empire. This project depended on the twin beliefs that the Italian population did indeed constitute a distinct race and that certain aspects of its moral and physical makeup could be influenced during childhood. Eden K. McLean assembles evidence from state policies, elementary textbooks, pedagogical journals, and other educational materials to illustrate the contours of a Fascist racial ideology as it evolved over eighteen years. Her work explains how the most infamous period of Fascist racism, which began in the summer of 1938 with the publication of the "Manifesto of Race," played a critical part in a more general and long-term Fascist racial program.

Innovation in Methodology and Practice in Language Learning Nov 17 2021 This volume is composed of 24 papers originally presented as talks at the VIII National Conference of the Italian Association of University Language Centres (Associazione Italiana dei Centri Linguistici Universitari: AICLU), held at the University of Foggia, Italy, between 30 May and 1st June 2013. The contributions fall into five sections: 1) keynote addresses from plenary speakers; 2) innovative challenges for language centres; 3) new developments in teaching language for specific purposes; 4) proposals and case studies in Content and Language Integrated Learning; and 5) the use of new technologies in language learning. 18 papers are in English, four in Italian, one in French and one in German. The fact that three-quarters of the papers are in English reflects the way English has become the lingua

franca of academic conferences today. However, in keeping with the ethos of CercleS (Confédération Européenne des Centres de Langues de l'Enseignement Supérieur, the pan-European organisation to which AICLU belongs), which is strongly committed to promoting plurilingualism, it was crucial that contributions would also be accepted in other languages. The volume represents the 'state of the art' in the field of language teaching and theory in university language centres not only in Italy, but also in other parts of Europe and the Mediterranean, and testifies to the rich variety of ways in which these centres are adapting and thriving in rapidly changing times.

Proceedings of the VIIth GSCP International Conference. Speech and Corpora Apr 29 2020 The 7th International Conference of the Gruppo di Studi sulla Comunicazione Parlata, dedicated to the memory of Claire Blanche-Benveniste, chose as its main theme Speech and Corpora. The wide international origin of the 235 authors from 21 countries and 95 institutions led to papers on many different languages. The 89 papers of this volume reflect the themes of the conference: spoken corpora compilation and annotation, with the technological connected fields; the relation between prosody and pragmatics; speech pathologies; and different papers on phonetics, speech and linguistic analysis, pragmatics and sociolinguistics. Many papers are also dedicated to speech and second language studies. The online publication with FUP allows direct access to sound and video linked to papers (when downloaded).

Language Variation - European Perspectives VIII Jan 27 2020 This volume contains a selection of papers from the 10th International Conference on Language Variation in Europe (ICLaVE 10), which was organized by the Fryske Akademy and held in Leeuwarden/Ljouwert (the Netherlands) in June 2019. The editors have selected thirteen papers on a wide range of language varieties, geographically ranging from Dutch-Frisian contact varieties in Leeuwarden to English in Sydney, Australia. The selection includes traditional quantitative and qualitative approaches to different types of linguistic variables, as well as state-of-the-art techniques for the analysis of speech sounds, new dialectometrical methods, covariation analysis, and a range of statistical methods. The papers are based on data from traditional sources such as sociolinguistic interviews, speech corpora and newspapers, but also on hip hop lyrics, historical private letters and administrative documents, as well as re-analyses of dialect atlas data and older dialect recordings. The reader will enjoy the vibrant diversity of language variation studies presented in this volume.

Italian National Identity in the Scramble for Africa Aug 02 2020 Italy's First African War (1880-1896) pitted a young and ambitious European nation against the ancient Empire of Ethiopia. The Least of Europe's Great Powers rashly assailed Africa's most formidable military power. The outcome was humiliating defeat for Italy and the survival, uniquely for any African nation in the years of the European Scramble for that continent, of Ethiopian independence. Notwithstanding Italy's disastrous first experience in the colonial fray, this book argues that the impact of the war went well beyond the battlefields of the Ethiopian highlands and reached into the minds of the Italian people at home. Through a detailed and exhaustive study of Italian popular culture, this book asks how far the First African War impacted on the Italian nation-building project and how far Italians were themselves changed by undergoing the experience of war and defeat in East Africa. Finaldi argues, for the first time in historiography on the subject, that there was substantial support for and awareness of Italy's military campaign and that 'Empire', as has come to be regarded as fundamental in the histories of other European countries, needs to be brought firmly into the mainstream of Italian national history. This book is an essential contribution to debates on the relationship between European national identity and culture and imperialism in the late 19th century.

7 Fundamentals of an Operationally Excellent Management System Sep 03 2020 Developing and maintaining a disciplined management system provides any organization with a blueprint for exceptional performance and success. Indeed, for larger multinational corporations, a management system is a critical component for sustainable growth and performance management. In this book, the authors discuss a series of fundamentals for creating an operationally excellent management system (OEMS). The book also examines the business performance impact of an OEMS across leading gas and oil organizations, such as Exxon Mobil, BP, Suncor, and Chevron. In *7 Fundamentals of an Operationally Excellent Management System*, the authors discuss each fundamental in detail and provide the supporting training and workshop materials that are essential for integrating these fundamentals into the business processes of the organization. The seven fundamentals identified by the authors provide a sequential approach for developing and executing an OEMS across any organization. Integrating sound organizational and business practices with personnel and process safety management principles, the book is an invaluable resource for organizations seeking operational discipline and excellence. Well-supported with graphics and practical examples, the book provides a simple pathway for an organization to evolve its management system into an OEMS designed to reduce workplace incidents and improve business performance on a sustainable basis. The management system principles discussed in the book are intended for the business leader who is motivated to transition his or her organization from ordinary, through best in class, to an organization of world-class stature and performance.
