[The English Change Network](#) Feb 21 2022 This book introduces the notion of change construction and systematically studies, within a Cognitive Grammar framework, the rich inventory of its instantiations in English, from well-known structures such as the so-called resultative construction to a variety of largely ignored types such as asymmetric

resultatives, sublexical change constructions and mildly causal constructions.

[A History of English Reflexive Pronouns](#) Sep 30 2022 This book brings

together a number of seemingly distinct phenomena in the history of English: the introduction of special reflexive pronouns (e.g. myself), the loss of verbal agreement and pro-drop, and the disappearance of morphological Case. It provides vast numbers of examples from Old and Middle English texts showing a person split between first, second, and third person pronouns. Extending an analysis by Reinhart & Reuland, the author argues that the 'strength' of certain pronominal features (Case, person, number) differs cross-linguistically and that parametric variation accounts for the changes in English. The framework used is Minimalist, and Interpretable and Uninterpretable features are seen as the key to explaining the change from a synthetic to an analytic language.

This book looks at how historical linguists accommodate the written records used for evidence. The limitations of the written record restrict our view of the past and the conclusions that we can draw about its language. However, the same limitations force us to be aware of the particularities of language. This collection blends the philological with the linguistic, combining questions of the particular with generalizations about language change.

Medieval English Drama Dec 22 2021 Originally published in 1990, Medieval English Drama is an exhaustive bibliography of scholarship on medieval English drama. Each item has been annotated in the bibliography with considerable care; these annotations are descriptive rather than critical and give a clear synopsis of the content of each

reference, the texts with which it deals, and a brief indication of its critical position. The bibliography is divided into two sections; editions and collections of plays, and critical works. The bibliography is exhaustive rather than selective and provides English annotations for foreign language works, as well as a list of reviews for most books. The book covers liturgical and folk drama, other forms of entertainment, and related material useful to researchers in the field. The book provides an update of sources not listed in Carl J. Stratman's comprehensive Bibliography of Medieval Drama published in 1972.

*Contemporary Foundations for Teaching English as an Additional Language* Jun 03 2020 This engaging volume on English as an Additional Language (EAL), argues persuasively for the importance of critical participatory pedagogies that embrace multilingualism and multimodality in the field of TESOL. It highlights the role of the TESOL profession in teaching for social justice and advocacy and explores how critical participatory pedagogies translate into English language teaching and teacher education around the world. Bringing together diverse scholars in the field and practicing English language teachers, editors Polina Vinogradova and Joan Kang Shin present 10 thematically organized units that demonstrate that language teaching pedagogy must be embedded in the larger sociocultural contexts of teaching and learning to be successful. Each unit covers one pedagogical approach and includes three case studies to illustrate how English language teachers across the world implement these approaches in their classrooms. The chapters are supplemented by discussion questions and a range of practical sources for further exploration. Addressing established and emerging areas of TESOL, topics covered include: Critical and postmethod pedagogies Translingualism Digital literacy and multiliteracies Culturally responsive pedagogy Advocacy Featuring educators implementing innovative approaches in primary, secondary, and tertiary contexts across borders, *Contemporary Foundations for Teaching English as an Additional Language* is an ideal text for methods and foundational courses in TESOL and will appeal to in-service and

preservice English language teachers as well as students and teacher educators in TESOL and applied linguistics.
