**The Infinite** Feb 09 2021 Our life is speckled with the anecdotes and their narrative tales and one does not have to traverse too far and wide to stumble upon them. A connoisseur can identify them with an insightful profundity and a perceptively sensitive observance. The compositions of stories compiled in The Infinite are testimony to this. Ramesh Pokhriyal 'Nishank' has accentuated his truthful observations in his stories standing on the turbulent surface of life. It is worth noticing that numerous stories of 'Nishank' are the narrative sagas of the marginalised people. 'Nishank' has collected story threads from poverty, commodification of relationships, subject matters pertaining to women, and the ironical circumstances engulfing human life etc. While working on the warp and the woof of his narrative sources, he captures the attention of his readers and does not deviate them from the labyrinth of his imagination. His narratives speak volumes in simple language filled with simplicity. The stories of The Infinite are testimony to the joys and sorrows of life.

**Pop Empires** Dec 10 2020 At the start of the twenty-first century challenges to the global hegemony of U.S. culture are more apparent than ever. Two of the contenders vying for the hearts, minds, bandwidths, and pocketbooks of the world's consumers of culture (principally, popular culture) are India and South Korea. "Bollywood" and "Hallyu" are increasingly competing with "Hollywood"—either replacing it or filling a void in places where it never held sway. This critical multidisciplinary anthology places the mediascapes of India (the site of Bollywood), South Korea (fountainhead of Hallyu, aka the Korean Wave), and the United States (the site of Hollywood) in comparative dialogue to explore the transnational flows of technology, capital, and labor. It asks what sorts of political and economic shifts have occurred to make India and South Korea important alternative nodes of techno-cultural production, consumption, and contestation. By adopting comparative perspectives and mobile methodologies and linking popular culture to the industries that produce it as well as the industries it supports, Pop Empires connects films, music, television serials, stardom, and fandom to nation-building, diasporic identity formation, and transnational capital and labor. Additionally, via the juxtaposition of Bollywood and Hallyu, as not only synecdoches of national affiliation but also discursive case studies, the contributors examine how popular culture intersects with race, gender, and empire in relation to the global movement of peoples, goods, and ideas.

**Moments of Truth** Jan 23 2022 From his childhood in the borderlands of what is now Pakistan, to his position today as the foremost teacher of acting – guru of acting – in India, the saga of Shri Roshan Taneja is not only the story of this remarkable man, but of India herself – vision, grit, struggle, and a never ending search for perfection. From his 13 years of teaching at the Film Institute of India, Pune, to today, the list of Taneja-sahib's students reads like a list of honour – Shatrughan Sinha, Jaya Bhaduri, Naveen Nischal, Rehana Sultan, Danny, Shabana Azmi, Mithun Chakraborti, Naseeruddin Shah, Om Puri – these are only a few of his students from the Film Institute; when he shifted to Bombay, he guided such

fine actors as Anil Kapoor, Aamir Khan, Ajay Devgun, Govinda, Tina Munim, and so many others. Roshan Taneja speaks of all of these artistes in rich, personal terms – but he also speaks of his struggle in the Hindi-film industry – including doing an impromptu improvisation with Meena Kumari – and, above all, his sojourn to the USA in the early 50's to pursue his dream of learning acting, a dream he pursues even today.

**Smart Cities** Jun 15 2021 "Saath ensured communities understood not just their rights when it came to basic services but also their responsibilities. With three decades of experience in partnerships for equitable and rights-based urban development, Saath is well positioned not just to be a player, important as that is, but to also be a resource agency, a teacher and a guru, sharing its successes and failures to other institutions who are treading a similar path." Mr Shankar Venkateswaran, Former Chief, TATA Sustainability Group and former Country Head, American India Foundation "This book not only highlights the good work done by Saath, but also provides food for thought in terms of what needs to be done to make our cities a much better place to live than what they are today. This book will certainly help inspire people to join NGOs in their own ways and help create an atmosphere for social change that will lead to a more inclusive growth." Mr Dilip Chenoy, Secretary General, Federation of Indian Chamber of Commerce and Industries "Urban India needs a large number of initiatives like those taken by SAATH to solve its large and diversified problems." Prof Chetan Vaidya, former Director of the National Institute of Urban Affairs and School of Planning and Architecture, Delhi, Trustee of Saath

**Seven Days of Nectar** Aug 18 2021 The thousand-year-old Sanskrit classic the Bhagavatapurana, or "Stories of the Lord," is the foundational source of narratives concerning the beloved Hindu deity Krishna. For centuries pious individuals, families, and community groups have engaged specialist scholar-orators to give week-long oral performances based on this text. Seated on a dais in front of the audience, the orator intones selected Sanskrit verses from the text and narrates the story of Krishna in the local language. These sacred performances are thought to bring blessings and good fortune to those who sponsor, perform, or attend them. Devotees believe that the narratives of Krishna are like the nectar of immortality for those who can appreciate them. In recent years, these events have grown in number, scale, and popularity. Once confined to private homes or temple spaces, contemporary performances now fill vast public arenas such as sports stadiums, and attract live audiences in the tens of thousands while being simulcast around the world. In Seven Days of Nectar, McComas Taylor applies the tools of performance theory to uncover the factors that contribute to the explosive growth of this tradition. His innovative approach, which draws on close textual reading, philology, and ethnography, casts new light on the ways in which narratives are experienced as authentic and transformative and, more broadly, how texts shape societies.
