Bream Gives Me Hiccups Apr 27 2022 The wildly inventive debut collection of stories by the Oscar-nominated star of *The Social Network*. “Hilarious . . . It’s a hoot” (People, *The Best New Books*). Jesse Eisenberg, known for his iconic film roles, his regular pieces in the *New Yorker* and two critically acclaimed plays, proves himself “a deeply original comic voice” in these 28 stories” about the funniness, sadness, and strangeness of everyday life and they really made me laugh” (Roz Chast). Moving from contemporary LA to the dorm rooms of an American college to ancient Pompeii, Eisenberg throws the reader into a universe of social misfits, reimagined scenes from history, and ridiculous overreactions; a college freshman forced to live with a roommate is stunned when one of her ramen packets goes missing (“She didn’t have ‘one’ of my ramens. She had a chicken ramen.”); Alexander Graham Bell has teething problems with his invention (“I’ve been calling Mabel all day, she doesn’t pick up! Yes, of course I dialed the right number—2!”); and in the title story, a precocious and privileged nine-year-old boy finds himself in the uncomfortable position as an amateur restaurant critic. Featuring illustrations by award-winning cartoonist Jean Jillian, this “alphabet soup of sketches, riffs, and innovations” (Seattle Times) explores the various insanities of the modern world, “playfully bringing both familiar and wholly original scenarios to life” (Marie Claire). A Fall Books Preview Selection by Audible One of the Wall Street Journal’s 15 Books to Read This Fall One of USA Today’s Weekend Picks for Book Lovers One of People Magazine’s Best New Books *Ibon Aranberri* Mar 27 2022 Gramatica de meseta presents itself as the imperfect result of a whole: it confirms the importance of an account and the impossibility of a linear construction. From a de-centred viewpoint (which is a subterfuge used to cover up the impossibility of grasping the different registers involved) a universalising account is evoked: a story of stories or an interrupted flow. Different genres overlap. On the one hand we encounter the futile intent to catalogue originals stored in archives, both those of large companies and those in the private collections of amateur photographers. On the other, we find the chance result of an itinerant, updated approximation to those same places through the medium of the camera. Meta-history, or the exhibition as antithesis.

Football and Fascism Nov 30 2019 Institutionalized as a fascist game in Mussolini's Italy, football was exploited domestically in an attempt to develop a sense of Italian identity and internationally as a diplomatic tool to improve Italy's standing in the global arena. The 1930s were the zenith of achievement for Italian football. Italy hosted and won the 1934 World Cup tournament and retained the trophy in 1938 in France. In the 1936 Berlin Olympics, Italy won the soccer tournament with a team of university students, affirming the nation's international football supremacy. At club level, calcio was reorganized into a single, national league in 1929, namely, Serie A, after which the first Italian club teams emerged to dominate European competition and threaten previous British notions of supremacy. In this time, Italian Fascism fully exploited the opportunities football provided to shape public opinion, penetrate daily life, and reinforce conformity. By politicizing the game, Fascism also sought to enhance the regime's international prestige and inculcate

nationalist values. The author argues that the regimes attempt to use sport to formulate identity actually forced it to recognize existing tensions within society, thereby paradoxically permitting the existence of diversity and individuality. The book serves as a cultural history of Fascism in Italy viewed through the lens of football.

Upon the Gardens of Epicurus Oct 10 2020 Sir William Temple, diplomat, statesman, and writer, retired to his garden in the 1680s and wrote what has become one of the key texts, not only of gardening, but also of the English aesthetic. It was he who introduced the idea of the charm of irregularity, and who gave it the allegedly Chinese name sharawadgi. The English style of landscape gardening can be traced in a direct line to this essay, which has not been in print for over 95 years.

Chess with My Grandfather Jun 05 2020 After immigrating with his German Jewish family to South America in the 1930s, Heinz Magnus hopes to escape the Nazi regime and build a new life for himself. But with the storm clouds of war gathering over Europe, the Politeama Theatre in Buenos Aires is chosen as the venue for the Chess Tournament of Nations. The world's eyes are suddenly fixed on Heinz's newly adopted city. Heinz and a colorful cast of characters--drawn from real life, the author's imagination, and stolen from the pages of Stefan Zweig--find themselves caught up in a web of political intrigue, romantic entanglements, and sporting competition that seems to hold the fate of the world hanging in the balance. Ariel Magnus leaves no stone unturned in his efforts to learn more about his grandfather and the country to which he emigrated in the 1930s. Chess with My Grandfather is a playful, genre-shifting novel combining tales of international espionage, documentary evidence, and family lore. In this extraordinary book, Magnus blends fact and fiction in a delirious exploration of a dark period of history, family, identity, the power of art and literature and, of course, the fascinating world of chess.

Sustainable Ceramics Jul 27 2019 Artists are increasingly interested in producing work that is not only beautifully designed and produced, but is also environmentally friendly and socially responsible. In Sustainable Ceramics, pioneer Robert Harrison draws on more than four decades of making, and a wealth of experience shared by other artists to present practical possibilities for ceramic artists. This book covers all the factors to consider when going 'green', from fuels and alternative firing technology to energy-saving methods, sustainable ways to collect and use clay itself, and ways to deal with or recycle waste materials and save water. He suggests simple and achievable methods by which to reduce the carbon footprint of ceramic art, and draws on interviews and examples throughout by practitioners who reclaim, reuse and recycle in their studio or work. Sustainable Ceramics is an essential resource for any ceramicist, studio or school looking for ideas on how to reduce the impact of their practice on the environment.

Mapping Precariousness, Labour Insecurity and Uncertain Livelihoods Oct 22 2021 The condition of precariousness not only provides insights into a segment of the world of work or of a particular subject group, but is also a standpoint for an overview of the condition of the social on a global scale. Because precariousness is multidimensional and polysemantic, it traverses contemporary society and multiple contexts, from industrial to class, gender, family relations as well as political participation, citizenship and migration. This book maps the differences and similarities in the ways precariousness and insecurity in employment and beyond unfold and are subjectively experienced in regions and sectors that are confronted with different labour histories, legislations and economic priorities. Establishing a constructive dialogue amongst different global regions and across disciplines, the chapters explore the shift from precariousness to precariat and collective subjects as it is being articulated in the current global crisis. This edited collection aims to continue a process of mapping experiences by means of ethnographies, fieldwork, interviews, content analysis, where the precarious define their condition and explain how they try to withdraw from, cope with or embrace it. This is valuable reading for students and academics interested in geography, sociology, economics and labour studies.

Margins of Excess Sep 01 2022 In 'Margins of Excess' the notion of how personal imagination conflicts with generally accepted beliefs is expressed through the narratives of six individuals. Every one of them momentarily received nationwide attention in the US press because of their attempts to realize a dream or passion, but were presented as frauds or deceivers by the mass media's apparent incapacity to deal with idiosyncratic versions of reality. The current era of 'post-truth', in which truths, half-truths, lies, fiction or entertainment are easily interchanged, has produced a culture of 'hyper-individual truths', demanding a new approach to identify the underlying narratives that structure our perception of reality in a world where there is no longer a generally accepted frame of realism. Embedding the stories of the six main protagonists into a clustering tale of cloned military dogs, religious apparitions, suspect vehicles, fake terrorist plots, accidental bombings and fictional presidents, this book follows an associative logic akin to the

indiscriminate way a paranoid mind connects unrelated events, or the hysteria of the 24-second news cycle.

Commerce and Government Sep 28 2019 This text covers such topics as value, money, agriculture, domestic and foreign trade, war, labor, interest rates, luxuries, and the various government policies that affect these subjects. The theme that unites these disparate subjects is liberty. As Condillac writes near the end of the work, the means to eradicate all the abuses and injustices of government is "to give trade full, complete and permanent freedom." In their preface to the 1997 edition, Shelagh and Walter Eltis wrote, "English language readers . . . will find . . . that the case for competitive market economics has rarely been presented more powerfully." Étienne Bonnot, Abbé de Condillac (1714-1780) was one of eighteenth-century France's preeminent philosophers of the Enlightenment, who had wide-ranging influence beyond metaphysics and epistemology to political thought and economics. He was a leading advocate in France of the ideas of John Locke, Bishop George Berkeley, and David Hume. Shelagh Eltis is a historian and graduate of Somerville College, Oxford, U.K. Walter Eltis is an Emeritus Fellow of Exeter College, Oxford, and Visiting Professor of Economics at the University of Reading, U.K.

Vitoria: Political Writings Aug 20 2021 Francisco Vitoria was the earliest and arguably the most important of the Thomist political philosophers of the Counter-Reformation. Not only did he write important essays on civil and ecclesiastical power, but he became celebrated for his defence of the new world Indians against the imperialism of his own master, the King of Spain. Vitoria's political works are thus of great importance for an understanding both of the rise of modern absolutism, and the debate about the emergent imperialism of the European powers. His works are also unusually accessible, since they survive mainly in the form of 'relectiones', or summaries delivered at the end of his lecture courses on law and theology at the University of Salamanca. Translated here into English for the first time, these texts comprise the core of Vitoria's thought, and will be of interest to specialists in political theory and the history of ideas, ecclesiastical history, and the history of early modern Spain. A comprehensive introduction, a chronology, and a bibliography accompany the texts.

But his irresistibly beautiful would-be slayer is in just as much danger as Ronan when she falls for this man with a magic of his own. 2004: What do you do when you inherit a Scottish island you never knew existed—and find yourself pursued by a handsome stranger who wants to buy it from you? That's what happens to Ruri Kell when she accepts Iain MacInnes's invitation to visit her birthright, and listens to a proposition as sinfully tempting as everything else about him. Three seductive love stories, three passionate couples, all linked by one of the most romantic myths of all.

Notes from the Hyena's Belly Jan 25 2022 In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, *Notes from the Hyena's Belly* offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.

Of Civil Liberty Dec 24 2021 THOSE who employ their pens on political subjects, free from party-rage, and party-prejudices, cultivate a science, which, of all others, contributes most to public utility, and even to the private satisfaction of those who addict themselves to the study of it. I am apt, however, to entertain a suspicion, that the world is still too young to fix many general truths in politics, which will remain true to the latest posterity. We have not as yet had experience of three thousand years; so that not only the art of reasoning is still imperfect in this science, as in all others, but we even want sufficient materials upon which we can reason. It is not fully known, what degree of refinement, either in virtue or vice, human nature is susceptible of; nor what may be expected of mankind from any great revolution in their education, customs, or principles. MACHIAVEL was certainly a great genius; but having confined his study to the furious and tyrannical governments of ancient times, or to the little disorderly principalities of ITALY, his reasonings especially upon monarchical government, have been found extremely defective; and there scarcely is any maxim in his prince, which subsequent experience has not entirely refuted. A weak prince,[1] says he, is incapable of receiving good counsel; for if he consult with several, he will not be able to choose among their different counsels. If he abandon himself to one, that minister may, perhaps, have capacity; but he will not long be a minister: He will be sure to dispossess his master, and place himself and his family upon the throne. I mention this, among many instances of the errors of that politician, proceeding, in a great measure, from his having lived in too early an age of the world, to be a good judge of political truth. Almost all the princes of EUROPE are at present governed by their ministers; and have been so for near two centuries; and yet no such event has ever happened, or can possibly happen.

Tiger Country Nov 10 2020 Nina Raine's *Tiger Country* is a hospital play that follows a tangle of doctors and nurses in a busy London hospital - from the award-winning author of *Tribes*. Professionalism and prejudice, turbulent staff romances, ambition and failure collide in this swirling, action-packed drama about an overburdened health service that we all depend on and the dedicated individuals that keep it going. "Tiger country" is where animal instinct stirs and an irrefutable eye opens. Where we make eye contact with the unknown. *Tiger Country* was premiered at Hampstead Theatre in 2011 and, following its sell-out run, was revived there in 2014.

Among the Lost Aug 27 2019 In the desolate wastelands between the sierra and the jungle, under an all-seeing, unforgiving sun, a single day unfolds as relentlessly as those that have gone before. People are trafficked and brutalised, illegal migrants are cheated of their money, their dreams, their very names even as countless others scabble to cross the border, trying to reach a land they call El Paraíso. In this grim inferno, a fierce love has blossomed — one that was born in pain and cruelty, and one that will live or die on this day. Estela and Epitafio too were trafficked, they grew together in the brutal orphanage, fell in love, but were ripped apart. They have played an ugly role in the very system that abused them, and done the bidding of the brutal old priest for too long. They have traded in migrants, put children to work as slaves, hacked off limbs and lives without a thought, though they have never forgotten the memory of their own shackles. Like the immigrants whose hopes they extinguish, they long to be free; free to be together and alone. Here in an unnamed land that could be a Mexico reimagined by Breughel and Dante, on the border between purgatory and inferno, where Paradise is the mouth of hell and cruelty the only currency, lives are

spent, bartered and indentured for it. Must all be bankrupt among the lost?

Power and the Pursuit of Peace: Theory and Practice in the History of Relations Between States Feb 23 2022 In the last years of the nineteenth century peace proposals were first stimulated by fear of the danger of war rather than in consequence of its outbreak. In this study of the nature and history of international relations Mr Hinsley presents his conclusions about the causes of war and the development of men's efforts to avoid it. In the first part he examines international theories from the end of the middle ages to the establishment of the League of Nations in their historical setting. This enables him to show how far modern peace proposals are merely copies or elaborations of earlier schemes. He believes there has been a marked reluctance to test these theories not only against the formidable criticisms of men like Rousseau, Kant and Bentham, but also against what we have learned about the nature of international relations and the history of the practice of states. This leads him to the second part of his study - an analysis of the origins of the modern states' system and of its evolution between the eighteenth century and the First World War.
