Speculative Biography May 05 2020 While speculation has always been crucial to biography, it has often been neglected, denied or misunderstood. This edited collection brings together a group of international biographers to discuss how, and why, each uses speculation in their work; whether this is to conceptualise a project in its early stages, work with scanty or deliberately deceptive sources, or address issues associated with shy or stubborn subjects. After defining the role of speculation in biography, the volume offers a series of work-in-progress case studies that discuss the challenges biographers encounter and address in their work. In addition to defining the 'speculative spectrum'

within the biographical endeavour, the collection offers a lexicon of new terms to describe different types of biographical speculation, and more deeply engage with the dynamic interplay between research, subjectivity and that which Natalie Zemon Davis dubbed 'informed imagination'. By mapping the field of speculative biography, the collection demonstrates that speculation is not only innate to biographical practice but also key to rendering the complex mystery of biographical subjects, be they human, animal or even metaphysical.

Jack Lynch, A Biography Jul 07 2020 Jack Lynch is one of the most important and perhaps most underrated Irish political leaders of the twentieth century. A sportsman who won six All-Ireland medals in a row with Cork, he was also a civil servant and a barrister before being elected to Dáil Éireann in 1948. During his thirty-one years as a parliamentarian, he held the ministries of Education, Industry and Commerce, and Finance before succeeding Seán Lemass as Taoiseach in 1966. Lynch held office during the critical years of the late 1960s and early 1970s when Northern Ireland disintegrated and civil unrest swept through Belfast, Derry and other towns. This precipitated one of the worst crises in the history of the Irish state. Jack Lynch upheld the parliamentary democratic tradition at great personal and political cost, even to the point of fracturing the unity of his government and his party. If you want to know what happened during those terrible years, read this book.

Hayek: A Collaborative Biography Jan 01 2020 This book is the eighth volume in this Collaborative Biography, which explores the life and works of Nobel Prize-winning economist F.A. Hayek (1899-1992). Making extensive use of archival material and Hayek's own published writings, it presents a strong challenge to perceptions of the economist's life and thought. In this volume, chapters canvas subjects such as the relationship between the Austrian School of Economics and the Cold War, the Hapsburg Empire, and the overthrow (or planned overthrow) of democracy in a variety of countries, with a view to examining the process

by which economics is constructed and disseminated.

Writing Biography Jun 05 2020 The historian as biographer must resolve questions that reflect the dual challenge of telling history and telling lives: How does the biographer sort out the individual's role within the larger historical context? How do biographical studies relate to other forms of history? Should historians use different approaches to biography, depending on the cultures of their subjects? What are the appropriate primary sources and techniques that scholars should use in writing biographies in their respective fields? In *Writing Biography*, six prominent historians address these issues and reflect on their varied experiences and divergent perspectives as biographers. Shirley A. Leckie examines the psychological and personal connections between biographer and subject; R. Keith Schoppa considers the pervasive effect of culture on the recognition of individuality and the presentation of a life; Retha M. Warnicke explores past context and modern cultural biases in writing the biographies of Tudor women; John Milton Cooper Jr. discusses the challenges of writing modern biographies and the interplay of the biographer's own experiences; Nell Irvin Painter looks at the process of reconstructing a life when written documents are scant; and Robert J. Richards investigates the intimate relationship between life experiences and new ideas. Despite their broad range of perspectives, all six scholars agree on two central points: biography and historical analysis are inextricably linked, and biographical studies offer an important tool for analyzing historical questions.

General John A. Rawlins Oct 29 2019 No one succeeds alone, and Ulysses S. Grant was no exception. From the earliest days of the Civil War to the heights of Grant's power in the White House, John A. Rawlins was ever at Grant's side. Yet Rawlins's role in Grant's career is often overlooked, and he barely received mention in Grant's own two-volume *Memoirs*. *General John A. Rawlins: No Ordinary Man* by Allen J. Ottens is the first major biography of Rawlins in over a century and traces his rise to assistant adjutant general and ultimately Grant's secretary of war. Ottens presents the portrait of a man who teamed with Grant, who submerged his needs and ambition in the service of Grant, and who at times served as the

doubter who questioned whether Grant possessed the background to tackle the great responsibilities of the job. Rawlins played a pivotal role in Grant's relatively small staff, acting as administrator, counselor, and defender of Grant's burgeoning popularity. Rawlins qualifies as a true patriot, a man devoted to the Union and devoted to Grant. His is the story of a man who persevered in wartime and during the tumultuous years of Reconstruction and who, despite a ravaging disease that would cut short his blossoming career, grew to become a proponent of the personal and citizenship rights of those formerly enslaved. General John A. Rawlins will prove to be a fascinating and essential read for all who have an interest in leadership, the Civil War, or Ulysses S. Grant.

Dictionary of Manitoba Biography Sep 28 2019 Manitoba has been at the crossroads of many of the important debates and events in Canadian history. From the early fur trade to the Riel Rebellion to the Winnipeg General Strike, Manitobans have frequently played crucial roles in Canadian and sometimes world history. Until now, there has been no comprehensive, contemporary source for information on the many Manitobans who have left their mark on history and society. Dictionary of Manitoba Biography fills this gap, with biographical sketches of over 1700 Manitobans who have made an impact in politics, the arts, sports, commerce, agriculture, and society. It is an invaluable resource for scholars, students, and general readers interested in Canadian history. Particular emphasis has been placed on reflecting Manitoba's ethnic and social diversity, and on including men and women who were notable in

their own day but have now been forgotten. Many entries also refer the reader to additional references for further reading. More than a reference book, Dictionary of Manitoba Biography is also a fascinating work of history in its own right, which presents the full and colourful scope of over 300 years of people in Manitoba history and social life, from premiers and mayors to nightclub owners and sports heroes.

Perspectives on Chemical Biography in the 21st Century Jun 29 2022

Overlooked, even despised by historians of chemistry for many years, the genre of biography has enjoyed a revival since the beginning of this century. The key to its renaissance is the use of the biographical form to provide a contextual analysis of important themes in contrast to the uncritical, almost hagiographic, lives of chemists written in the earlier part of the twentieth century. Bringing together the contributions of scholars active in several different countries, *Perspectives on Chemical Biography in the 21st Century* leads the reader through emerging questions around sources, and the generic problems faced by authors of biographies, before moving on to discuss aspects more related with physical, theoretical and inorganic chemistry, and facets of 19th century chemistry. In contrast to the letters and diaries of earlier chemists, we are now faced with scientists who communicate by telephone and email, and compose their documents on computers. Are we facing a modern equivalent of the destruction of the Library of Alexandria where all our sources are wiped out electronically?

The Oxford Handbook of the African American Slave Narrative Nov 30 2019 Given the rise of new interdisciplinary and methodological approaches to African American and Black Atlantic studies, The Oxford Handbook of the African American Slave Narrative will offer a fresh, wide-ranging assessment of this major American literary genre. The volume will begin with articles that consider the fundamental concerns of gender, sexuality, community, and the Christian ethos of suffering and redemption that are central to any understanding of slave narratives. The chapters that follow will interrogate the various agendas behind the production of both pre- and post-Emancipation narratives and take up the various interpretive problems they pose. Strategic omissions and veiled gestures were often necessary in these life accounts as they revealed disturbing, too-painful truths, far beyond what white audiences were prepared to hear. While touching upon the familiar canonical autobiographies of Frederick Douglass and Harriet Jacobs, the Handbook will pay more attention to the under-studied narratives of Josiah Henson, Sojourner Truth, William Grimes, Henry Box Brown, and other often-overlooked accounts. In addition to the literary autobiographies of bondage, the volume will anatomize the powerful WPA recordings of interviews with former slaves during the late 1930s. With essays on the genre's imaginative afterlife, its final essays will chart the emergence

and development of neoslave narratives, most notably in Styron's *The Confessions of Nat Turner*, Toni Morrison's *Beloved* and Octavia Butler's provocative science fiction novel, *Kindred*. In short, the Handbook will provide a long-overdue assessment of the state of the genre and the vital scholarship that continues to grow around it, work that is offering some of the most provocative analysis emerging out of the literary studies discipline as a whole.
